

360 ACCUSEAL

Top Load Anode Access System For Water Tanks

The 360 Accuseal is engineered to safeguard potable water from external intrusions, ensuring a reliable barrier against contamination. Its innovative design allows for quick, hassle-free installation with minimal disruption. Additionally, it facilitates easy inspections with minimal need for supplementary adjustments or accommodations.

- Meets AWWA D104/D106 and NACE SP0388/SP0196
- NSF-61 Compatible.
